01.

Professional Profile

Graphic Designer graduated from the University of Buenos Aires (FADU - UBA), with experience in visual identity design, social media content, and institutional communication.

I worked at the 'Biblioteca Nacional de Maestros' (National Teachers' Library), developing branding projects, editorial design, and digital assets, including web products.

I specialize in creating clear and effective visual solutions, with a focus on branding, social media design, and digital communication.

2017 - Present

Freelance Graphic Designer

- Development and production of graphic assets and audiovisual content for digital platforms, ensuring consistency with brand and communication standards.
- Editorial design quality control, including style correction and layout refinement in accordance with established style guides.
- UI design and prototyping for web applications, applying user-centered design principles and usability best practices.

2008 - December 2017

Graphic Designer at 'Biblioteca Nacional de Maestros' (National Teacher's Library from Argentine Ministry of Education)

- Led the conceptualization, design, and layout of the institutional website, strengthening the organization's digital presence.
- Contributed to the design and development of web platforms focused on web services.
- Participated in the design and development of a platform for building institutional repositories for provincial Ministries of Education, including promotional materials, brochures, and an animated presentation video.
- Designed the digital editorial collection "BNM for Teachers," including packaging, interface, and layout (HTML + PHP), distributed nationwide.
- Designed the audiovisual series "American Gatherings (Tertulias Americanas)," developing graphic assets, packaging, and visual elements for video editing.
- Designed graphic materials for large-scale institutional events, including the Ministry of Education's stand at the National Bicentennial Promenade (2010).
- Created the visual identity for the platform "Vocabulary in Argentine Education."
- Designed institutional communication materials for both print and digital media.
- Developed user interfaces for touchscreen devices.
- Produced printed editorial materials (institutional calendars, publications, forms, surveys).
- Designed social media graphics (posts, banners, animated GIFs).
- Created digital publications (interactive PDFs and ePubs) for e-learning platforms.
- Contributed to the design and development of various digital platforms and assets.
- Prepared print-ready files for multiple production systems (offset, screen printing, flexography, digital printing).
